Education

Metric in Biology

2019 - 2021

I was naturally curious and loved exploring new ideas, which sparked my early interest in technology. This phase laid the foundation for my passion for learning and digital innovation.

Intermediate in Engineering

2021 - 2023

Studied pre-engineering, building strong analytical and logical thinking skills. This is where I discovered my deeper interest in computing and digital systems.

Bachelor in Computer Science

2023 - (continue)

Currently pursuing a degree in Computer Science to gain hands-on skills in programming and development. Focused on building solutions through coding, databases, and modern technology.

Projects

- Digital Magazine Design (ICT)
- Electricity Bill Generator System (Programming Fundamentals)
- Hospital Management System (DBMS)
- Fire and Water Detection Alarm System (Digital Logic Design)
- OOP + DBMS Integrated Mini Project
- Matching Cards Game (Artificial Intelligence)
- Text Editor Using Stack (Data Structures)
- Web Development Projects (Personal)
